

COMMITTEES, KNIGHTS AND LADIES ORDER, RED CROSS

We learn that Miss Bessie Lee Tollett was married to Mr. J. B. Cox, of Fort Myers, Florida, May 1. The bride is the daughter of Mark H. Tollett. Litton and is well known to many in Crossville and at other points over the county. She is a graduate of the Cumberland County High School. The groom is a prominent business and real estate dealer of Fort Myer.

Monday night the following committees were appointed to solicit members for the Knights and Ladies Order of the Red Cross: Among the married ladies, Josie Rector, Earley Reed, Zella McCartt; among the young ladies, Misses Theresa Keaton, Ruth DeRossett, Eva Wilson; among the young men, Augustus Turner, Corrie Smith, Robert Potter; among the older men, Calvin Turner, M. F. Reed, Raht Haley. Committee on hall, J. S. Reed, G. P. Burnett, T. F. Brown.

There are now 154 applicants and the charter will be held open until 200 are secured. Lodges will be organized July 4: One at Crossville in the court house at 7:00 p. m., sharp; one at Daddys Creek, at 2:30 p. m., for Crab Orchard. Those wishing to join can do so by seeing any one of the committee members or Dr. W. A. Reed or Senator G. W. Poague in person.

Children's Day will be observed at the Baptist church next Sunday. A special program is being arranged that will be helpful and entertaining. Services will begin promptly at 11 a. m., and will last for about one hour. Everybody is invited to attend this service. Geo. P. Burnett, Supt.

Within the past ten days this section has been visited by three splendid rains. Potatoes have been greatly benefited and the early crop will now make. Hay has been much benefited too, but the crop will be below the average. The blackberries are very abundant and will soon begin to ripen. The recent rains promise to make the crop unusually large and plump.

Improved Paint-Spray Guns.

Painting or varnishing by the spray method has so clearly proved its advantages that improved tools for its use are of general interest. A spraying nozzle, of automatic-pistol form, now being made in Missouri, handles all kinds of liquid coatings, including heavy asphalt paint, with pressures of 80 pounds and less. One model is made to fit the top of an ordinary screw-top jar or metal container. Jars containing different colors may be interchanged in about 30 seconds, the nozzle being cleaned by blowing kerosene and air through it. This method covers up to 30 or 40 square feet of surface a minute, while a larger type arranged for connection to a special pressure tank, covers as much as 85. An important feature is its easy adjustment from fine shading to heavy-flow coating.—Popular Mechanics Magazine.

The "Dryas" of Bombay.

Mohammedans in Bombay have started an anti-drinking campaign to "reform" their co-religionists. They are picketing the liquor shops and the Moslems coming out have their faces blackened and are marched through the streets. One man found drunk was decked with a "garland" of old shoes and was taken round the city by an escort beating empty oil tins.—London Mail.

Polar Bear Can Swim.

The Polar bear is as fine a swimmer as a seal, and behaves, in the ice-cold seas of the north, with as much unconcern as though it had been born in that element, writes Dr. R. W. Shufeldt in the American Forestry Magazine. It has been known to drift for miles upon a floating iceberg, and this evidently for pleasure and convenience, rather than from necessity, as a number of Arctic explorers have reported having seen Polar bears, hale and hearty, swimming in the open ocean all the way from 40 to 80 miles from land.

Earthquakes at Sea.

An eruption occurring at sea is called seaquake and the chief effect is the production of huge waves and violent commotion of the water of the sea. In 1864, during an earthquake at Sirzoda, Japan, the waters of a bay were first agitated, then retreated, leaving the bottom bare in places where the water had been 30 feet deep. A wave 30 feet high then rushed in and swept everything in its path. Other earthquake waves have destroyed cities and shipping; part of the destruction in the Messina earthquake was caused by a wave produced in this way.

I've tried them all but give me a Camel

ROLL-ROOFINGS

THE body of this durable roofing is made of Carey Woolfelt thoroughly saturated with the toughest, most elastic asphalt compound. The surface is thickly coated with mica (isinglass) put on at 400° of heat and rolled in under heavy pressure.

Mica makes the roofing *spark-proof*; it stands three thousand degrees of heat. It is a protection against lightning—being the most perfect non-conductor of electricity obtainable—used in electric light bulbs. No superior to mica as an insulator has ever been discovered.

Tough, durable, weather-resisting, fire-resisting, Mica-Kote Roofing will keep your buildings warmer, and give you long service at astonishingly low cost. Made in three weights. Ask us about them.

Miss Nellie Sutter, of Kansas City, is coming to Crossville Wednesday to direct the children in the "Tom Thumb Wedding." She will be the guest of Mrs. E. M. Roland.

Lee Stevens died Sunday morning about eight o'clock of heart failure superinduced by a severe attack of indigestion. He had been suffering for several years with kidney trouble and a few days before he was taken he had suffered quite severely with bowel trouble. Dr. V. L. Lewis was called Sunday morning about eight o'clock. When he arrived Mr. Stevens stated that he was feeling much better and that he had, just previous to the arrival of the doctor, been suffering severely with pain around his heart. Doctor Lewis saw that he was in a critical condition and prepared some medicine to give him. However, before the medicine could be administered, he was taken again with a severe attack and sank back on the bed and died at once. He was a quiet, industrious man and had very few if any enemies. He leaves a wife and five young children. The funeral services were conducted by J. V. Wright and J. W. Dorton and the remains were buried beside his father at Hydertown, a mile and a half east of Crossville.

The "Tom Thumb Wedding" will be presented at the Mecca Theater Friday night at 8 p. m. It is given by the children of our town for the benefit of the M. E. Church, South. Every one come and enjoy an evening of fun. Admission, 25 and 50 cents.

The children who are taking part in the "Tom Thumb Wedding" will have their first rehearsal at the M. E. Church, South, Wednesday afternoon, at 4 p. m. Mothers, please send the children.

Mrs. J. J. Castleman and children are in Monterey this week visiting with relatives and friends. They plan to visit in Lebanon and Murfreesboro before they return home. They will probably be absent two or three weeks. Mrs. Frank March arrived home last week from Ohio, where she had been called by the death of her sister.

PUREBRED DUROCS FOR SALE.

I have nine purebred Duroc pigs for sale that were sired by the famous boar, SCISSORS. The dam was our BESSIE ORION, farrowed May 4. I will sell these pigs to any reliable farmer boy on 12 months time. W. T. HALE.

TO TEACHERS.

A state uniform examination for Teachers will be held in the Court House in Crossville on July 8 and 9, 1921, and all teachers not holding certificates, and that desire to teach in the County are expected to be present and take the examination.

Respectfully,
J. S. Cline,
Supt. Pub. Instruction.
